The BETTER Shower System

# HYDRO-BLOK™

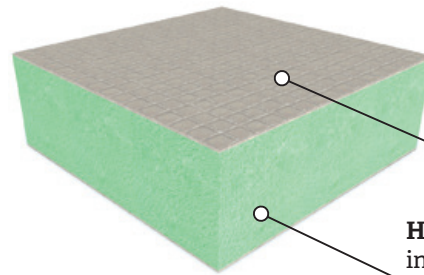

The BETTER Shower System

What is HYDRO-BLOK? Put simply, it is the easiest, quickest and most user-friendly way to build a waterproof shower or tub surround at a price you can afford.

HYDRO-BLOK was developed to provide you with a convenient and hassle-free way to build and customize the shower of your dreams. Whether you are a Do-It-Yourselfer or contractor, you will be thoroughly impressed at the quality and affordability that comes with using HYDRO-BLOK products. With its closed-cell XPS foam core and its polymer-modified cement coating, you get a fully waterproofed line of shower pans, wallboards and accessories that are lightweight, strong and ready for your tile or stone creations.

## The HYDRO-BLOK™ Advantage

Modified cement coating for maximum adhesion of any tile, stone, or mosaics

HCFC-free XPS closed-cell foam interior. 100% waterproof

With the **HYDRO-BLOK™** product range you can build a BETTER Shower System easier & faster than traditional showers

HYDRO-BLOK™ Shower System	Traditional Shower Install
✓ Simple, quick installation for DIYers or contractors	Slow and difficult installation best left to specialty contractors
✓ Environmentally friendly lightweight products with HCFC-free XPS foam core	Heavy materials including cement base and wallboard
✓ All products are 100% waterproof	Requires application of full waterproof membrane before tile/stone is installed
✓ About 1-3 hours for standard 3 x 3 shower install	Minimum 2 to 4 days for shower install
✓ No additional vapour barrier required for standard shower	Vapour barrier must be installed when built on an outside wall
✓ Accessories provide easy customization with minimal install time	Customizing is costly & labour/time intensive
✓ 10-year warranty on HYDRO-BLOK foam products	No manufacturer warranty on cement base/liner
✓ All foam products IAPMO tested 100% mold-proof	Highly prone to mold growth and water saturation

## All HYDRO-BLOK™ products are IAPMO tested & certified

The International Association of Plumbing and Mechanical Officials, or IAPMO, is a non-profit agency which tests and evaluates plumbing and mechanical products according to nationally recognized standards and to the requirements of the Uniform Plumbing Code™ (UPC™) as well as to the Canadian Uniform Plumbing Code™ (cUPC™).

Commercial construction projects, as well as many residential construction developments, require specified products to be certified or listed through a 3rd party such as IAPMO.

# The HYDRO-BLOK™ Shower System

☛ All HYDRO-BLOK foam components can be quickly and easily cut or customized with a utility knife, hand saw, or standard power saw.

☛ Applying HYDRO-BLOK joint sealant to all seams and screws creates your final waterproof shower system ready for tile, stone, or mosaic application.

☛ Tile or stone can be laid within 1 hour of completing your HYDRO-BLOK shower system installation.

## BARRIER-FREE SHOWER ENTRY

### Easy Barrier-Free Elegance

Have you dreamed of a luxurious open-concept shower that seamlessly transitions from your bathroom floor directly into your shower with no barrier or curb?

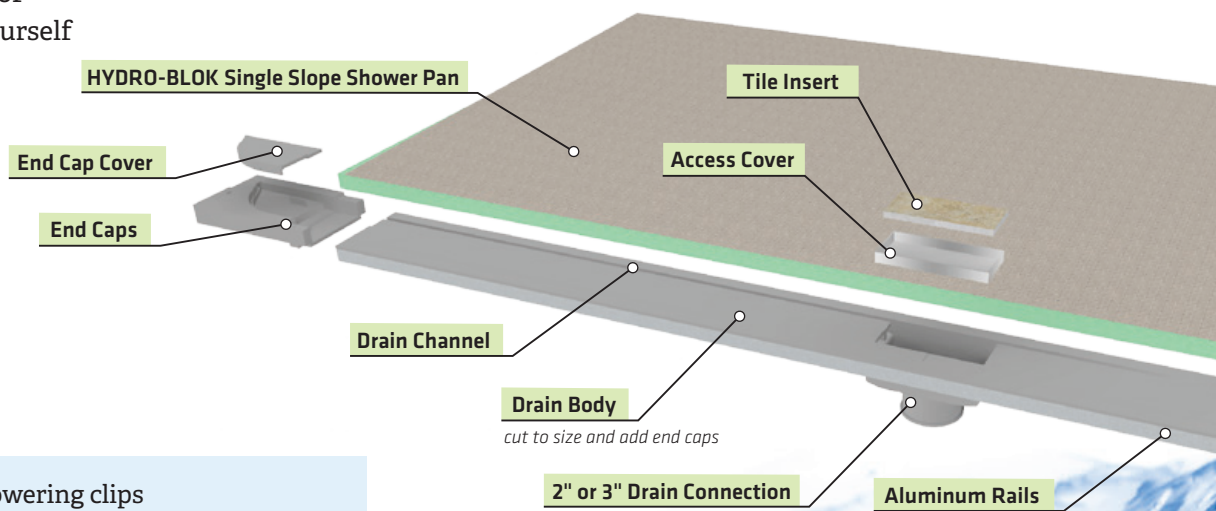

HYDRO-BLOK Single Slope shower pans together with the Ebbe INNI® Linear Drain are your solution. The freedom to use any size of tile or stone on your shower pan allows for unique and creative designs and with no metal drain cover on the shower floor, your shower has the look and feel of luxury and elegance.

Ebbe's INNI® Linear Drain can be placed anywhere in a shower as it is easily customized to fit any shower space or size for either residential or commercial installations.

Take a look at the new era of shower designs and put yourself in a world of luxury and timeless elegance.

### The Ebbe INNI® Linear Drain

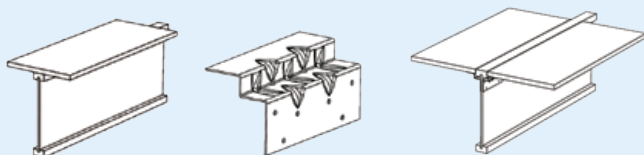

The 73½" linear drain body can be cut to fit showers of all sizes or coupled with additional drain bodies for larger showers.

The Ebbe America INNI® Linear Drain is a patented system fully compatible with HYDRO-BLOK Single Slope Shower Pans.

With Ebbe's all-new floor lowering clips (patent-pending), your shower area can be set up for a barrier free installation in no time at all.

Floor lowering clips allow the subfloor to be installed flush with the joists to allow barrier-free entry to your shower.
